Avevo conosciuto Andreas e Zoya in \*Jonas e Viridiana. Il cuore d' inverno\* e li avevo adorati. In questo loro libro Francesca li ha descritti con straordinaria maestria. Il senso di colpa e il disagio hanno permesso a questi due splendidi ragazzi di scendere a compromessi ove la loro vera dignità ha fatto scudo alla loro anima. Storico perfetto.

Anno Domini 1112. Zoya è convinta che non troverà mai l'amore a causa delle cicatrici che le attraversano il viso come graffi di una fiera. La sua vita è cambiata undici anni prima, quando era ancora una ragazzina innamorata, ma ora è una donna e sa cosa desidera: ricominciare a vivere in un luogo lontano dal passato. Per questo parte per la rocca di Rostock, dove spera di liberarsi dei pensieri che le avvolgono la mente e il cuore... Il castello sul fiordo di Rostock è stato assegnato a uno spietato guerriero, arrogante e violento, che tutti chiamano Der Bär, l'Orso, ma il cui vero nome è Andreas. Proprio in lui Zoya riconosce il suo amico di infanzia e primo segreto amore, tornato dall'Oriente dopo aver affrontato e superato terribili prove. Lei è stata la sola donna che abbia mai toccato lo spirito di Andreas prima che si trasformasse in roccia. L'amore tra i due riemerge con forza, ma a separarli c'è un abisso di segreti che solo il sentimento più potente può colmare. L'Impero vacilla, la corona è contesa, Enrico V e il duca

Lotario si affrontano in sanguinosi conflitti... Amore o guerra? La scelta spetta a un cuore di pietra.

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. *The Case for Marriage* is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced—physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. *The Case for Marriage* combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. *The Case for Marriage* is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of *The Book of Virtues* "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- *The Wall Street Journal* [www.broadwaybooks.com](http://www.broadwaybooks.com)

"A resistance novel for our time." - *The New York Times* "A hopeful story about recovery, empathy, and the bravery of young people." - Booklist "This well-crafted and suspenseful novel touches on the topics of refugees and immigrant integration, terrorism, Islam, Islamophobia, and the Syrian war with sensitivity and grace." - Kirkus, Starred Review Fourteen-year-old Ahmed is stuck in a city that wants nothing to do with him. Newly arrived in Brussels, Belgium, Ahmed fled a life of uncertainty and suffering in Aleppo, Syria, only to lose his father on the perilous journey to the shores of Europe. Now Ahmed's struggling to get by on his own, but with no one left to trust and nowhere to go, he's starting to lose hope. Then he meets Max, a thirteen-year-old American boy from Washington, D.C. Lonely and homesick, Max is struggling at his new school and just can't seem to do anything right. But with one startling discovery, Max and Ahmed's lives collide and a friendship begins to grow. Together, Max and Ahmed will defy the odds, learning from each other what it means to be brave and how hope can change your destiny. Set against the backdrop of the Syrian refugee crisis, award-winning author of *Jepp*, *Who Defied the Stars* Katherine Marsh delivers a gripping, heartwarming story of resilience, friendship and everyday heroes. Barbara O'Connor, author of *Wish* and *Wonderland*, says "Move Nowhere Boy to the top of your to-be-read pile immediately."

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SLATE • Includes an exclusive conversation between Lev Grossman and Lauren Owen For fans of Anne Rice, *The Historian*, and *The Night Circus*, an astonishing debut, a novel of epic scope and suspense that conjures up all the magic and menace of Victorian London 1892: James Norbury, a shy would-be poet newly down from Oxford, finds lodging with a charming young aristocrat. Through this new friendship, he is introduced to the drawing-rooms of high society and finds love in an

unexpected quarter. Then, suddenly, he vanishes without a trace. Alarmed, his sister, Charlotte, sets out from their crumbling country estate determined to find him. In the sinister, labyrinthine London that greets her, she uncovers a hidden, supernatural city populated by unforgettable characters: a female rope walker turned vigilante, a street urchin with a deadly secret, and the chilling "Doctor Knife." But the answer to her brother's disappearance ultimately lies within the doors of the exclusive, secretive Aegolius Club, whose predatory members include the most ambitious, and most bloodthirsty, men in England. In her first novel, Lauren Owen has created a fantastical world that is both beguiling and terrifying. The Quick will establish her as one of fiction's most dazzling talents. Look for special features inside. Join the Random House Reader's Circle for author chats and more. "A suspenseful, gloriously atmospheric first novel, and a feast of gothic storytelling that is impossible to resist."—Kate Atkinson "A cracking good read . . . Owen takes the gothic conventions of the vampire novel in a refreshing new direction."—Deborah Harkness, author of *A Discovery of Witches* and *The Book of Life* "A good old-fashioned vampire novel . . . What fun."—The New York Times Book Review (Editor's Choice) "The Quick is that rare book that reviewers and readers live for: both plot- and character-driven, a stay-up-all-night reading romp. . . . This is elegant, witty, force-of-nature writing."—The Dallas Morning News "The book's energy, its wide reach and rich detail make it a confident example of the 'unputdownable' novel."—The Economist "A seamless blend of Victorian London and rich imagination."—Tana French, author of *In the Woods* "A thrilling tale . . . This book will give you chills even on a hot day."—Minneapolis Star Tribune "Stylishly sinister . . . will have you sleeping with the lights on."—O: The Oprah Magazine "A sly and glittering addition to the literature of the macabre."—Hilary Mantel, author of *Wolf Hall* "A big, sly bucketful of the most tremendous fun . . . [Owen] weaves what's here with what's beyond as easily as J. K. Rowling does."—Slate "[An author of] prodigious gifts . . . Owen captures Dickens's London with glee and produces a number of characters Dickens would be happy to call his own."—Pittsburgh Post-Gazette

"The idea of BlaBlaCar was born one Christmas when I wanted to get home to my family in the French countryside. 500 km away from Paris, it wasn't the easiest place to reach. With no car and all the trains sold out, I finally convinced my younger sister to make a lengthy detour via Paris to pick me up. By the end of 2016, BlaBlaCar will count 40 million members in 22 countries. In the past decade, enabled by trust and technology, we have built the world's largest carpooling community. We have turned millions of lonely drivers into carpoolers and have opened up a whole new world of friendly and affordable travel. We are optimizing cars, one of the world's most inefficiently used assets. And best of all, we are enabling new social connections along the way." Frédéric Mazzella – Founder of BlaBlaCar

Deciding when and how to retire are among the most important decisions most people make. Can they be depended on to plan with foresight and make sound decisions? According to standard economic analysis the answer is a qualified "yes." But studies by psychologists, sociologists, and economists themselves raise doubts about this comforting appraisal. This volume by analysts trained in economics and other disciplines suggests that retirement planning and decisions fall far short of the rational ideal. Gary Burtless explains what economic research has to say about retirement behavior. Annamaria Lusardi reports that many people in their fifties and older say they have not even thought about retirement. Mathey Rabin and Ted O'Donoghue show that procrastination can cause huge economic losses. Robert Axtell and Joshua Epstein show that herd behavior explains observed patterns of retirement behavior better than does the assumption of rational decisionmaking. George Loewenstein, Drazen Prelec, and Roberto Weber report that many people incorrectly anticipate what retirement will be like and rationalize whatever decision they have made. David Fetherstonhaugh and Lee

Ross report experimental evidence that the effect of Social Security provisions may depend on how these policies are "framed" as well as on the specific content of those policies. These and other authors also explore the broader implications of these behavioral patterns. Copublished with Russell Sage Foundation

This book provides a practical guide to the use and applications of inorganic biomaterials. It begins by introducing the concept of inorganic biomaterials, which includes bioceramics and bioglass. This concept is further extended to hybrid biomaterials consisting of inorganic and organic materials to mimic natural biomaterials. The book goes on to provide the reader with information on biocompatibility, bioactivity and bioresorbability. The concept of the latter is important because of the increasing role resorbable biomaterials are playing in implant applications. The book also introduces a new concept on mechanical compatibility - 'mechacompatibility'. Almost all implant biomaterials employed to date, such as metal and ceramic implants, do not meet this biological requirement as they have far higher modulus than any biomaterials in the body. The practical techniques that are used in the characterization of biomaterials, including chemical, physical, biological, microscopy and mechanical characterization are described. Some specialised techniques are also introduced such as Synchrotron Micro-Computed Tomography (u-CT) and Magnetic Resonance Imaging (MRI). The reader is given important information on new biomaterials development for orthopaedic and other areas, including controlled release technology, hydroxyapatite and hybrid bioresorbable materials. Finally the book provides a guide to regulatory considerations, an area which is often overlooked, but is an important part of R&D and manufacturing of medical materials and devices.
