Pump~~ — fuinjeco.com

Mechanically controlled injection pumps are divided into two categories: In-line fuel injection pump. The in-line fuel injection pump has the same number of fuel pressure mechanisms (elements) as engine cylinders. This type of pump, including the governor, timer and feed pump on the pump's body, is mainly used for medium and large trucks and ...

DENSO is a leading manufacturer of high quality diesel fuel injection parts and components, including diesel fuel injectors and diesel pumps. The fuel injection system lies at the very heart of the diesel engine. By pressurising and injecting the fuel, the system forces it into air that has been compressed to high pressure in the combustion chamber.
