GMC vehicles are designed and built to resist corrosion. All body and sheet metal components are warranted against corrosion for 3 years/36,000 miles and rust-through protection lasts for 6 years/100,000 miles, whichever comes first.

## ~~GMC Owners | Warranty FAQs~~

Servicing Refrigerant Systems 1. Always wear the proper protective eyewear and clothing before working on any refrigeration system. Remember, refrigerant in the air conditioning system can reach pressures of over 500 PSI — if one of those lines bursts while you ' re working on the system, it can cause serious injury.

Pressurized freon gas is the component that keeps the air conditioner in your GMC Sierra cool. The gas is turned into liquid by a compressor then passed through an expansion valve where air, cooled by the freon, is blown into the cabin. Occasionally, the freon in the air conditioner needs to be recharged.
