covers and critically examines: English Language Studies as a discipline that is changing and evolving in response to local and global pressures; definitions of English, including world Englishes, contact Englishes, and historical and colonial perspectives; the relevance of English in areas such as teaching, politics and the media; analysis of English situated in wider linguistics contexts, including psycholinguistics, sociolinguistics and linguistic ethnography. The Routledge Handbook of English Language Studies is essential reading for researchers and students working in fields related to the teaching and study of the English language in any context.

The Handbook of English Linguistics is a collection of articles written by leading specialists on all core areas of English linguistics that provides a state-of-the-art account of research in the field. Brings together articles from the core areas of English linguistics, including syntax, phonetics, phonology, morphology, as well as variation, discourse, stylistics and usage. Written by specialists from around the world. Provides an introduction to a key area of English Linguistics and includes a discussion of the most recent theoretical and descriptive research, as well as extensive bibliographic references.

Teaching is the definitive reference volume for postgraduate and advanced undergraduate students of Applied Linguistics, ELT/TESOL, and Language Teacher Education, and for ELT professionals engaged in in-service teacher development and/or undertaking academic study. Progressing from 'broader' contextual issues to a 'narrower' focus on classrooms and classroom discourse, the volume's inter-related themes focus on: ELT in the world: contexts and goals planning and organising ELT: curriculum, resources and settings methods and methodology: perspectives and practices second language learning and learners teaching language: knowledge, skills and pedagogy understanding the language classroom. The Handbook's 39 chapters are written by leading figures in ELT from around the world. Mindful of the diverse pedagogical, institutional and social contexts for ELT, they convincingly present the key issues, areas of debate and dispute, and likely future developments in ELT from an applied linguistics perspective. Throughout the volume, readers are encouraged to develop their own thinking and practice in contextually appropriate ways, assisted by discussion questions and suggestions for further reading that accompany every chapter. Advisory board: Guy Cook, Diane Larsen-Freeman, Amy Tsui, and Steve Walsh

applications of this rapidly developing field of study. Including 47 state-of-the art chapters from leading international scholars, the handbook covers key concepts, regional spread, linguistic features and communication processes, domains and functions, ELF in academia, ELF and pedagogy and future trends. This handbook is key reading for all those engaged in the study and research of English as a lingua franca and world/global Englishes more broadly, within English language, applied linguistics, and education.

The Routledge Handbook of the English Writing System provides a comprehensive account of the English writing system, both in its current iteration and highlighting the developing trends that will influence its future. Twenty-nine chapters written by specialists from around the world cover core linguistic and psychological aspects, and also include areas from other disciplines such as typography and computer-mediated communication. Divided into five parts, the volume encompasses a wide range of approaches and addresses issues in the following areas: theory and the English writing system, discussing the effects of etymology and phonology; the history of the English writing system from its earliest development, including spelling, pronunciation and typography; the acquisition and teaching of writing, with discussions of literacy issues and dyslexia; English writing in use around

the world, both in the UK and America, and also across Europe and Japan; computer-mediated communication and developments in writing online and on social media. The Routledge Handbook of the English Writing System is essential reading for researchers and postgraduate students working in this area.

This handbook provides an authoritative, critical survey of current research and knowledge in the grammar of the English language. Following an introduction from the editors, the volume's expert contributors explore a range of core topics in English grammar, beginning with issues in grammar writing and methodology. Chapters in part II then examine the various theoretical approaches to grammar, such as cognitive, constructional, and generative approaches, followed by the chapters in part III, which comprehensively cover the different subdomains of grammar, including compounds, phrase structure, clause types, tense and aspect, and information structure. Part IV offers coverage of the relationship between grammar and other fields - lexis, phonology, meaning, and discourse - while the concluding part of the book investigates grammatical change over time, regional variation, and genre and literary variation. The handbook's wide-ranging coverage will appeal to
