instrumentation was born and orthopedic surgery came to prominence. The father of modern medicine, Hippocrates (460-ca. 377 B.C.), founded classical surgery. It is from Hippocrates that we have reports of instruments formed of hardened iron. In addition to iron and copper, bronze and brass were used to make instruments, which were either

Care & Handling of Instruments. Handling instruments. Instruments are placed firmly into the surgeon's palm in such a manner that it is ready of immediate use. Ringed instruments are handed with the box locks closed. Curved instruments are passed with the curve in the direction of intended use. To facilitate suturing the needle is secured about 1/8 inch down from the tip of the needle holder and about a third of the distance from the eye or swaged end.
