The Routledge Encyclopedia of Language Teaching and Learning is an authoritative handbook dealing with all aspects of this increasingly important field of study. It has been produced specifically for language teaching professionals, but can also be used as a reference work for academic studies at postgraduate level. It offers a comprehensive range of articles on contemporary language teaching and its history. Themes covered include: methods and materials assessment and testing contexts and concepts influential figures related disciplines, such as psychology, anthropology and sociolinguistics. It covers the teaching of languages, in particular Japanese, Chinese and Arabic, as well as English, French, German and Spanish. There are thirty-five overview articles dealing with issues such as communicative language teaching, early language learning, teacher education and syllabus and curriculum design. A further 160 entries focus on topics such as bilingualism, language laboratories and study abroad. Numerous shorter items look at language and cultural institutions, professional associations and acronyms. Multiple cross-references enable the user to browse from one entry to another, and there are suggestions for further reading. Written by an international team of specialists, the Routledge Encyclopedia of Language Teaching and Learning is an invaluable resource and reference manual for anyone with a professional or academic interest in the subject.

Seminar paper de l'année 2008 dans le domaine Etudes des langues romanes - Français - Didactique, note: 1,0, Universitat zu Koln (Romanisches Seminar), cours: Franzosisch Fachdidaktik, langue: Français, resume: Depuis quelques annees il y a dans l'enseignement des langues en Europe un changement qui ouvre le chemin au plurilinguisme. L'Union Europeene en tant que pele-mele des langues et des cultures recommande qu'autant de citoyens que possible apprennent au moins deux langues etrangeres europeennes vivantes . Depuis les didacticiens europeens ont pour but de creer des methodes d'apprentissage efficaces afin de maitriser plusieurs langues etrangeres. La methode directe qui determinait pendant le siecle dernier l'enseignement des langues a l'ecole - cette methode etait basee sur l'idee d'un strict unilinguisme - est peu a peu remplacee par de nouveaux concepts de didactique favorisant le plurilinguisme. Or, il ne s'agit pas d'envisager une competence maximale en tel ou tel idiome, mais a creer - en plus - une competence fondamentale d'apprentissage en matiere de langues etrangeres en general. Dans ce travail je vais presenter l'importance actuelle et les perspectives de la didactique du plurilinguisme a la base de textes scientifiques dont la plupart date des dernieres cinq ans. Je vais mettre l'accent en particulier sur l'enseignement du francais langue etrangere (dorenavant FLE) et son role dans le contexte d'une didactique susmentionnee. Dans les chapitres 3 et 4 on verra que l'intercomprehension occupe une place primordiale dans l'enseignement pluriingue et que le role de la langue francaise est dans ce contexte tres particulier. Le chapitre 5 analysera l'importance actuelle de la didactique du plurilinguisme dans les cours de FLE comportant des nouvelles impulsions, des perspectives, mais aussi des critiques et dangers.
