Robert Adam's *The Globalisation of Modern Architecture* takes a compelling and broad-ranging look at the output of the architectural world, writes James Pallister. It may seem an unlikely choice of subject for an architect known for being a practitioner of – say it sotto voce – ‘traditional architecture’, but Robert Adam has completed an impressively comprehensive and compelling survey of contemporary social and political theory.

The Globalisation of Modern Architecture: the Impact of ... Part sociological theory, part political and economic history, The Globalisation of Modern Architecture by Professor Robert Adam explains how Western or North Atlantic Modernist architecture came to dominate world cities and commercial architecture in the late 20th and 21st century. It is a scholarly book in which Robert Adam steps aside from his own architectural preferences, and takes a broad and impartial look at the development and consequences of this global phenomenon which impacts on ...

shifts in the balance of power since 1990.

The Globalisation of Modern Architecture: The Impact of ...
Modern architecture progressed with faith in reason. It introduced the concept of internationalization in architecture, whereby designs of offices, schools, hospitals and housing have been based on multifunction. This style, however, has been fast replaced by postmodernism in which concepts are set on universally accepted ideologies.
